Battleship – Player 1

Two players take turns in trying to guess the locations of the other player's ships on a grid. The player strategically places their own ships on the top grid. During the game, players take turns taking one shot at their opponent, by calling out the coordinates of a square (ie, F6). The opponent responds with "hit" if it hits one of their ships or "miss" if it misses. If the player has hit the last remaining square of a ship the opponent must announce the name of the ship as "You sank my battleship".
During the game, each player should record their opponent's shots on the top grid and their shots on the bottom grid as "X" for a hit and "O" for a miss. The first player to sink all of their opponent's ships wins the game.

Estimate how many of these things you will see on your trip. During the trip, add a tally mark every time you notice someone or something that is on this list. At the end of your trip, compare both numbers to see how close you were to guessing correctly. For an even greater challenge, ask someone else in the car to add a few items of their choice to this list.
